**Industrial Engineering & Installation Services**

## Environmental Policy Statement:

Industrial Engineering & Installation Services Limited recognises its responsibility to minimise its impact on the environment through the implementation of this Environmental Management System. Our goal is to significantly improve our environmental performance and integrate environmental considerations within the day-to-day activities of IEIS.

## Our Commitment:

- Comply with or exceed environmental legislation, regulations, and standards.
- Impose measurable environmental targets throughout the business to guarantee objectives are met.
- Ensure that the environmental management system is fully documented and reviewed.
- Develop emergency environmental procedures to respond to hazards/ incidents that may arise.
- Reduce material, water, and energy waste by ensuring efficient operations and adoption of waste reduction.
- Implementing recycling practices, reusing materials whenever possible and promoting the use of recycled and recyclable materials.
- Ensure that all materials are unloaded, used, stored, and disposed of in an environmentally responsible manner.
- Review the environmental impact of future plant, equipment and locations prior to its purchase and use.
- Define specific roles and responsibilities within IEIS and provide appropriate briefing and training for all employees to encourage initiative and raise awareness of the company policy.
- Cooperate with employees, suppliers, sub-contractors, and the public on relevant environmental matters.
